“Questions Asked and Hopefully Answered about Safety in the Industrial Coatings World”

- What standards are best used during an interior penstock project? Mining & Tunneling, or is it instead a permit required confined space?
- How did five men lose their lives working in one? When do permit required confined space regulations apply, and would it have prevented this loss?
- Do I need to do air monitoring, or can I just protect my workers as it they are exposed? What's the danger of not doing air monitoring? Do I need to do any other sampling?

Program Chair & Presenter: Burt Olhiser, Vantage Point Consulting
Chapter Chair: Ron Robison, Redwood Painting Co., Inc.
